Sofia is the capital of Bulgaria and its biggest city, nestled in the skirts of the Vitosha mountain. It boasts several millennia of history. The city has developed quickly in the recent years, gradually erasing the characteristics of a former east block country and evolving into a modern cosmopolitan European capital. Today Sofia is a dynamic and attractive city with plenty to keep you busy for a few days. The numerous tourist attractions include museums, art galleries, theatres, beautiful orthodox churches and open markets.

Shopping in Sofia is quite an experience.

You will find shining shops offering design clothes, small antique shops, private art galleries displaying icons, modern art and jewels, music shops and shops for traditional crafts.

Sofia is full of numerous trendy cafes, restaurants, clubs, bars and taverns which offer great opportunities for entertainment and night life.
